

Infusion Center Fairview (ICF) COVID-19 Monoclonal Antibody Infusion Center

The California Medical Assistance Team (Cal-MAT) is providing free antibody therapy to qualifying adults with mild-to-moderate COVID-19

If you have any of the following, you may qualify for this free treatment:

- Positive SARS-CoV-2 test result
- Diabetes
- Overweight
- Kidney disease
- Immune system disease (AIDS, leukemia, organ transplant, etc.)
- Immunosuppressive treatment (steroids, etc.)
- Age \geq 65 years of age
- Age \geq 55 years of age AND one of the following
 - o Cardiovascular disease, OR
 - o Hypertension, OR
 - o COPD/asthma/other chronic respiratory disease

Call for eligibility: (916) 420-1597

The sooner the treatment is given, the greater the chance it will work. The purpose of this treatment is to decrease the risk of developing severe disease and being admitted to the hospital. Callers will be screened and those who qualify will be offered a medical exam and treatment with intravenous antibodies. The treatment lasts about two hours and people who receive treatment will go home the same day.
